EDUCATION

University of California, Los Angeles		Expected June 2027
DEGREE	B.S. Financial Actuarial Mathematics · Minor in Accounting	
ACTUARIAL	Mathematics of Finance (174E); Actuarial Models (178A, 179) in progress. Sitting Exam FM, Fall 2026 — no exams completed to date.	
ALSO	Probability (170E/170S), Real Analysis, Linear Algebra; Accounting (MGMT 1A/1B), MGMT 105/109, ECON 1/11	

EXPERIENCE

UCLA Library, Biomedical Library — Student Assistant II		Mar 2026 – Present
- Hired as Student Assistant I and promoted. Circulation, interlibrary-loan pull lists, shelf reading, headcounts, opening and closing. - Built four tools now used in the unit's daily workflow, none of them assigned. One replaced the Collab Hub access path, which previously required an admin-portal login and a Slack request to a supervisor for a 2FA code every time; colleagues use mine instead. - Surveyed ~1,100 shelf-end range labels across nine stack levels after the library retired LibMaps, and built a call-number-to-shelf lookup and route planner on the dataset (shelfmark.phineasfritsch.com).		

MKTaxSolutions — IT Intern		Aug – Sep 2024
Consolidated 400+ client profiles across three separate services; integrated CCH software with office scanning systems; general IT support and client calls.		

PROJECTS — ALL AI-ASSISTED; I DIRECT THE WORK AND OPERATE THE RESULT

Dibs — dibs.ge		Rails 8 · PostgreSQL · Kamal · live
- Ranks UCLA general-education courses on grade history obtained through four public-records requests — 176,290 rows, deduplicated to 1,544,628 grades after correcting an instructor fan-out — and alerts students when a watched section opens a seat. - Runs on one 2.5 GB server I sized, deploy to and operate.		
The Cut Card — thecutcard.com		React Native · Expo · TypeScript · live
Blackjack strategy and counting practice, built under a self-imposed rule of no claim about money anywhere in it — not in the app, not on the paywall, not in a notification.		

LEADERSHIP

UCLA Sailing Team — Treasurer, then Team Captain		2024 – 2026
Ran the executive board and weekly meetings; coordinated travel, housing and rosters for biweekly regattas against a constrained budget.		
Theta Chi, Beta Alpha Chapter — House Manager, then Network Manager		2025 – Present
- Managed a \$10,000 annual operating budget and daily property operations with alumni. - Directed summer renovations — plumbing, structural repairs, a new game room — and used them in recruitment, contributing to the second-largest pledge class in chapter history.		

ACTUARIAL CASE COMPETITION

13th Annual Actuarial Case Competition (BAS)		Winter 2025
Priced three commercial property insurance structures for a simulated Fortune 500 real estate client, analysing how retentions, aggregate limits and co-insurance shifted tail risk. Computed TCOR and Risk-Adjusted TCOR against the CFO's premium constraint, using 10,000-iteration Monte Carlo simulations of annual aggregate losses fitted to Lognormal, Gamma and Pareto.		

SKILLS

QUANTITATIVE	Monte Carlo simulation, loss distribution fitting, Excel modelling
ENGINEERING	Ruby on Rails, PostgreSQL, TypeScript, Swift, Python; Docker, Kamal, Cloudflare, GitHub Actions, Linux, Proxmox
LANGUAGES	English (native), German (B2/C1, accredited)
